Work Experience

Frontend Engineer Intern at Lanatus systems, India

December 2021 – April 2021

As a Frontend Engineer intern at Lanatus systems, my work involves Learning and building curated weekly tasks in accordance to specifications provided by Supervisors. At Lanatus systems, I've:

- Participated and contributed in brainstorming sessions for design techniques features.
- Learnt and implemented core design principles.
- Refactored a class component back to a functional react component.
- Implemented UI designs and integrated APIs for demo apps.
- Implemented documentation solutions to code base.
- Participated in Sprint Demos, while making sure that all feedbacks from supervisors are well translated.

Skills:-ReactJs | JavaScript | Axios | Gatsby | SCSS | Git | CI/CD

Frontend Engineer at Local-coders Westernwells Abuja, Nigeria

June 2022 - Now

As a frontend Engineer at Westernwells, I am primarily responsible for handling the frontend development of various projects Web App and Web site. At Westernwells I:

- Was solely responsible for developing the Front-pages of various projects which.
- Integrated APIs for core user activities like member registration, KYC and payout/withdrawal.
- Optimized API calls by defining Fragments, composing Graphs and grouping multiple Querys into a single Query.
- Refactored numerous modules of WebApps by utilizing best practices, state, low coupling and high cohesion design patterns.
- Used google's JavaScript best practices and naming style guide, resulting in an organized, and clean architecture.

Skills:- ReactJs | Gatsby | JavaScript | Next.Js Tailwind | SCSS | AnimeJs | Git | CI/CD | Sentry | Astro.Js
